Proposed C134maro

SCHEDULE 3 TO CLAUSE 32.08 GENERAL RESIDENTIAL ZONE

Shown on the planning scheme map as **GRZ3**

GREYFIELD RENEWAL PRECINCTS

1.0 Neighbourhood character objectives

--/--/----
Proposed C134maro

To facilitate the renewal of the existing residential building stock through a coordinated precinct-based approach to design and development.

To encourage development to occur on amalgamated development sites to deliver community benefits including infrastructure, open space and landscaping improvements.

To allow increased building heights and reduced building setbacks on consolidated lots contingent on design outcomes derived from precinct design guidelines.

To improve walkability through the upgrading of existing laneways and the provision of additional pedestrian connections.

To improve drainage outcomes in keeping with best practice sustainability and urban design principles.

2.0 Construction or extension of a dwelling or residential building - minimum garden area requirement

--/--/----
Proposed C134maro

Is the construction or extension of a dwelling or residential building exempt from the minimum garden area requirement?

Yes

3.0 Permit requirement for the construction or extension of one dwelling or a fence associated with a dwelling on a lot

--/--/----
Proposed C134maro

Is a permit required to construct or extend one dwelling on a lot of between 300 and 500 square metres?

No

Is a permit required to construct or extend a front fence within 3 metres of a street associated with a dwelling on a lot of between 300 and 500 square metres?

No

4.0 Requirements of Clause 54 and Clause 55

--/--/----
Proposed C134maro

	Standard	Requirement
Minimum street setback	A3 and B6	None specified
Site coverage	A5 and B8	None specified
Permeability	A6 and B9	None specified
Landscaping	B13	None specified
Side and rear setbacks	A10 and B17	None specified
Walls on boundaries	A11 and B18	None specified
Private open space	A17	None specified
	B28	None specified

	Standard	Requirement
Front fence height	A20 and B32	None specified

5.0

--/--/----
Proposed C134maro

Maximum building height requirement for a dwelling or residential building

A building used as a dwelling or a residential building must not exceed a height of 13.5 metres and 4 storeys.

6.0

--/--/----
Proposed C134maro

Application requirements

The following application requirements apply to an application for a permit under Clause 32.08, in addition to those specified in Clause 32.08 and elsewhere in the scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- For a residential development of four storeys or less, a neighbourhood and site description and design response plan.
- A detailed site analysis that includes proposed subdivision layout and use of each part of the land, building heights, massing, setbacks, and indicative scale.
- A pedestrian walkway and cycle path plan.
- A landscape plan prepared by a suitably qualified and experienced person or firm, which shows the following:
 - A survey of all existing vegetation, abutting street trees, natural features and vegetation.
 - Building, outbuildings and trees in neighbouring lots that would affect the landscape design.
 - Planting within and around the perimeter of the site.
 - A schedule of the botanical name of all trees and shrubs proposed to be retained and those to be removed.
 - The proposed design features such as paths, paving, lawn and mulch
 - A planting schedule of all proposed vegetation (trees, shrubs and ground covers) which includes, botanical names, common names, pot size, mature size and total quantities of each plant.
- A Parking Plan.
- A civil infrastructure and drainage report that addresses the capacity of infrastructure to service the development (including drainage and sewerage), the treatment and retardation of stormwater and responds to the principles of water sensitive urban design. The report should have regard to the policies and guidelines of servicing authorities.
- A comprehensive Sustainability Management Plan prepared by a suitably qualified person(s) demonstrating best practice in environmentally sustainable design and responding to the Maroondah Sustainability Strategy 2016. The Sustainability Management Plan should address the following:
 - Building energy management (conservation and generation);
 - Water sensitive urban design/integrated water management (with reference to the Maroondah City Council Water Sensitive City Strategy);
 - Construction materials;
 - Indoor environment quality;
 - Waste management and reduction;

- Public realm design for access and mobility;
- Transport.

Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 32.08, in addition to those specified in Clause 32.08 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- Whether buildings are visually dominant and provide opportunities for landscaping and planting of mature species.
- Whether there is sufficient permeable space that is not encumbered by an easement to enable the planting of canopy trees.
- Whether there is potential for trees and vegetation to be provided between dwellings on the same site.
- Whether the vegetation in the street setback will contribute to the preferred neighbourhood character and the public realm.
- Whether the development provides for an appropriate built form transition to residential properties in the Neighbourhood Residential Zone and Residential Growth Zone, where applicable.
- Whether the development contributes to a diverse housing type which integrates with surrounding development.
